Subject **New workers' compensation submission: Lakeshore Dental Group, effective December 1**
Attached Application (2 pages), Loss run (1 page)

Good morning,

Attached is a workers' compensation submission for Lakeshore Dental Group. You already write their property and general liability, and Dr. Shah would like the workers' compensation with you as well when it comes up on December 1, 2026.

The short version: a dental practice with three Chicago offices, 24 employees and an estimated payroll of \$1,530,000. The experience mod is 0.94. They have had three claims in the last three years, all closed. They want guaranteed cost with a \$1,000,000 employers liability limit, and Dr. Shah is to be covered.

One thing to know: they open a fourth office in Lincoln Park in January 2027. That will add about six people. Their payroll is not in the figure above, because the hires are not made yet.

The expiring premium with Quillhaven Mutual is \$31,400. We need to be at or under that to move it. Could you have a quote back to me by October 20?

Thank you,

Marguerite Ellison
